

Appendix 2: Written Notices Issued as Required in Terms of the Regulations

Please note that in an effort to protect the personal information of the Registered I&AP's, proof of the actual notification documents submitted to I&AP's will not be made publicly available. Should you require access to this document for the purposes of fulfilling your obligations under the NEMA EIA Regulations or other lawful right, please feel free to contact the EIMS Information officer at 011 789 7170 or popia@eims.co.za

To whom it may concern

Dear Sir or Madam:

NOTIFICATION REGARDING OPPORTUNITY TO PARTICIPATE IN THE ENVIRONMENTAL AUTHORISATION APPLICATION PROCESS FOR THE PROPOSED SEWER PIPELINE UPGRADE FOR THE SELKIRK AVENUE HOUSING DEVELOPMENT, IN THE CITY OF JOHANNESBURG, GAUTENG PROVINCE, SOUTH AFRICA.

CSM Consulting Services (Pty) Ltd on behalf of the Johannesburg Social Housing Development Company (JOSHCO) (hereafter referred to as the applicant) has appointed Environmental Impact Management Services (Pty) Ltd (EIMS) as the Environmental Assessment Practitioner (EAP) to assist with undertaking the required authorisation processes (including the statutory public participation), and to compile and submit the required documentation in support of application for:

- Environmental Authorisation (EA) in accordance with the NEMA- Listed activity/ies:
 - Listing Notice 1: Activity 19; and
 - Listing Notice 3: Activity 12.
- Water Use Licence (WUL) in accordance with the National Water Act – NWA (Act 36 of 1998) – Listed Water Uses
 - Section 21(c) and Section 21(i).

Additional listed activities and/or water uses may be identified during the process.

JOSHCO wishes to construct a new housing development in Randburg. As part of the development approval process, Johannesburg Water (JW) requires that JOSHCO upgrades portions of the existing sewer infrastructure to comply with their masterplan requirements. The proposal is to install a new sewer infrastructure adjacent to the existing system with the existing system being kept operational. The sewer infrastructure will be installed within the existing road servitude from Jan Smut Avenue to Bordeaux Riverside Park, tracking through Valley Road and Garden Road. Before the proposed sewer infrastructure connects to an existing sewer infrastructure manhole which is located on the other side of Bordeaux Riverside Park, the pipeline will cross the Braamfontein Spruit stream, alongside the existing pipe.

The proposed crossing of the Braamfontein Spruit stream requires an EA and WUL. The crossing falls within portion 44 of the Farm Klipfontein 203 IR, portion 26 of Farm 41 IR and portion 8 of Farm 42 IR (Bordeaux Riverside Park). The start, middle and end points for the pipeline through the Bordeaux Riverside Park is as follows:

Start: 26° 5'57.20"S, 28° 1'4.91"E;

Middle: 26° 5'5.56"S, 28° 1'12.89"E; and

End: 26° 5'59.75"S, 28° 1'18.48"E.

EIMS will be following the procedures defined in the Environmental Impact Assessment (EIA) Regulations (GRN982 of 2014, as amended) for undertaking a Basic Assessment process. In accordance with Chapter 6 of the EIA Regulations, a public participation process will be undertaken. You are hereby invited to register and comment on the proposed project and application/s. In order to ensure that you are identified and registered as an I&AP and that your comments are captured, please submit your name, contact details, the reason for your interest if any, in writing or telephonically, to
